

MS. MAHALAKSHMI G N

M.Sc. (Organic Chemistry)

Assistant Professor – Chemistry, Dept. of B.Sc. Pure Science

Experience: 8 Months

Faculty Profile

Ms. Mahalakshmi G N is an Assistant Professor of Chemistry in the Department of B.Sc. Pure Science at Soundarya Institute of Management and Science. She holds an M.Sc. in Organic Chemistry from Bangalore University. Her specialization is in Organic Chemistry, with a strong academic focus on conceptual understanding, laboratory-based practical training, and application-oriented chemistry education for undergraduate students.

She is dedicated to fostering scientific curiosity, analytical thinking, and skill-based learning among students through innovative teaching methods and hands-on learning experiences. She has actively participated in several Faculty Development Programs on topics such as skill integration, design thinking for career readiness, AI-driven tools for academic writing, research methodology, and student well-being. She holds certifications in silk dyeing and printing from the Central Silk Technological Research Institute, intellectual property awareness, and space science and technology training programs.
